

Being a contester and 160 meter dx'r I would like to see the band setup like the other bands using the band plan. There are a lot of users that do not do SSB and need the segments allotted for CW use especially on contest weekends when the band is taken over by contesters.

I personally enjoy 160 meter operation, and would like to have a segment to play cw or digital while a contest is going on. I fully support the ARRL band plan as it is long overdue..

Thanks

Bob Lukaszewski K4HA
